JJ

SKILLS

Python, SharePoint, Ruby, Ruby on Rails, JavaScript, jQuery, React.js, Redux, SQL, Git, HTML5, CSS3

PROJECTS

Pathfinder (JavaScript, HTML5, CSS3)   Live Site | Github
A mouse-controlled browser game inspired by the mobile title Air Control.

- Given an object's speed, combines geometry with an event listener on mousemove to capture evenly spaced points, then renders that data as a moving dashed line modulated by the size of the object.
- Implemented without any external libraries, allowing minimal load time.

Wellread (Rails, PostgreSQL, React.js, Redux)   Live Site | Github
Fullstack web app for organizing and discovering books*, inspired by Goodreads.*

- Manages data flow via thunk action creators, making sequential calls to the store's dispatch prior to dealing with asynchronous AJAX requests and responses.
- Leverages Rails associations and Jbuilder partials to enable modular front-end components.

Battleship   Github
One-player version of the game Battleship written in Python.
- Takes turn-based input through the terminal and allows the player to choose any size grid.

EXPERIENCE

Project Specialist / Technology Coordinator
NYC Department of Transportation, Legal Affairs   Jun 2016 - Jan 2018
- Created custom Microsoft SharePoint apps to improve workflows across Divisions.
- Engineered changes to records searching and legal request tracking procedures through Microsoft SharePoint, improving user experience and efficiency.
- Authored spreadsheets, PivotTables, and graphs to report on productivity as well as training materials for technical, administrative, or procedural tasks.

Administrative Assistant / Paralegal
NYC Department of Transportation, Litigation Services, FOIL   Jan 2013 - Jun 2016
- Trained staff to perform records searches and to gain proficiency with new applications.
- Searched records pursuant to pending and ongoing litigation between claimants and NYC.
- Organized and compiled records into digital binders and compact discs.

EDUCATION

App Academy   (Spring 2018)
- Immersive software development course with focus on full stack web development
- Rigorous program that accepts < 3% of all applicants

Skidmore College • *Bachelor of Arts - Psychology* **(Spring 2011)**
